

# Vendor development

- HAL is focusing on identification of suitable vendors within the country at all levels through various vendor development programs for Indigenisation and Outsourcing.
- Around 2500 vendors are registered with HAL for Outsourcing activities.
- Hosting of 'Make in India' portal at HAL website [www.hal-india.com](http://www.hal-india.com) with details of imported items for indigenisation.
- HAL Test Facilities available for Private Vendors.
- List of vendors, vendor development procedures and policies, E-procurement portal and new initiatives.

## New Initiatives at HAL for Vendor development

- **R&D Corpus:** Allocation of 10% of the profit after the tax and the fund would be used for development of new technologies and indigenization of major systems/ LRUs which are currently imported.
- A **R&D manual** is implemented to bring guidelines for R&D projects and Indigenisation in-house and with Indian private vendors
- The **committee of Institutional Network (COIN)** is constituted to review and recommend the R&D projects from 10 R&D centers of HAL for implementation.
- Focus is given to develop MSME vendors and provide maximum support for Indigenisation, Outsourcing and technology development.
- Collaborating with DRDO labs, premier educational Institutes for development of latest technologies indigenously.
